Comments from the Chair of the Commission

Dr. Phillip C. Stone

Earlier this year, our Commission President notified the membership of a change that took place July 1, 2008, whereby the Commission on Colleges became a separately incorporated entity under the umbrella of our parent organization, the Southern Association of Colleges and Schools. This action was in line with our K-12 counterparts, the Council for the Advancement of School Improvement (SACS CASI), whose board took a similar action the previous year.

As explained in Dr. Wheelan's correspondence, this organizational change means that the nearly 800 institutions accredited by the Commission on Colleges are now members of the Southern Association of Colleges and Schools Commission on Colleges, Inc. (SACS COC) rather than of SACS. It has little impact on the way we conduct our business, but it does affect the nomenclature and responsibilities of our 77-member elected body, currently referred to as the "Commission on Colleges," who represent the membership in all aspects of the self-regulatory process, including making decisions on the accreditation status of our applicant, candidate, and member institutions. Because of confusion in the past in referring to the organization as the Commission

and the 77 member body as the Commission, the new Bylaws recognize the 77 representatives as the Board of Trustees, which is the governing board for SACS COC. This change in nomenclature will be confirmed this July.

The newly adopted Bylaws of SACS COC broadens the authority and responsibilities of its Board of Trustees in that the control and disposition of its properties and funds are vested in the Board. Previously, SACS—the Corporation—and the SACS' Board of Trustees controlled matters related to corporate assets.

This complete change of an organizational structure has evolved from a centralized Association founded in 1895 by six Southern colleges and universities for purposes of organizing Southern schools and colleges, elevating the standard of scholarship in the region, and developing preparatory schools to enhance college preparedness. SACS eventually established three commissions: the Commission on Elementary Schools (founded in 1965), the Commission on Secondary Schools (founded in 1912), and the Commission on Colleges (founded in 1919), with each Commission gradually assuming authority for accreditation decisions, policy development, and selection of personnel.

SACS' bylaws adopted in 1992 completely changed the face of SACS,

significantly decreasing the number of SACS Board members and their powers, eliminating centralized administration, and vesting more authority in the Commissions, including the hiring of each Commission's chief executive officer. With the separate incorporation of SACS CASI and of SACS COC, all historic functions of SACS have been assumed individually by its two corporate members.

This final decentralization, however, does not diminish the significance of the Southern Association of Colleges and Schools and its importance for education in the Southern region. Its brand name continues to represent a highly rigorous self-regulatory process for defining institutions that meet

established standards of quality and that strive to improve the learning experiences and achievements of their students. It promotes a review process that depends on the involvement of volunteers in all aspects of its activities. SACS, as a regional association, requires institutional commitment and engagement and continues to support the primary purpose for which it was founded; that is, elevating the standard of scholarship in the South.

Message from the President

Greetings!

Dr. Belle S. Wheelan

It is my pleasure to provide you with an overview of the Commission's activities for the years 2007 and 2008. I was honored to visit approximately 50 of our member institutions throughout the region and observed a great deal of quality instruction. From Virginia to Texas, institutions have identified and assessed student learning outcomes and, as a result, revised curricula and modified program support. In addition, the call for transparency is evident by visiting institutional Web sites and reading the available reports.

The Commission on Colleges (COC) continues to use data from Off- and On-Site Committee reports in order to identify topics that can be used as a basis for workshops designed for the membership who are having difficulty with our *Principles of Accreditation*. As a result, in the spring of 2007, we held two sessions on developing and assessing student learning outcomes with Dr. Dorothy Yancy, President of Johnson C. Smith University leading the sessions. The workshop was repeated at the annual meeting in New Orleans. In the spring of 2008, a session on governance was held in which COC Chair Dr. Phil Stone and staff participated. It also was repeated

at the annual meeting in San Antonio.

We again had a record number of attendees in both New Orleans and San Antonio. For the first time in Commission history, we were unable to hold on-site registration because we had registered the maximum number of people the fire marshall would allow. Since contracts are signed at least two years in advance of the meetings, it is difficult to anticipate how many attendees we will actually have. I would like to thank everyone who attended and patiently worked their way through crowded sessions and hallways. The very positive feedback we received related to the program and the logistics was greatly appreciated.

At the New Orleans meeting, the membership approved additional changes to the *Principles*, creating a need for us to reprint. Once that was done, several printed copies were sent to each member institution. Additional copies are available for purchase or download from our Web site.

Although the Commission has had a policy related to substantive changes for quite sometime, a new Comprehensive Standard (3.12) was added to the *Principles* in December 2007. In order to provide member institutions with a better understanding of what the new Standard entails, we developed a workshop detailing the specifics of the changes and presented it at several sessions held across the region. Feedback has been very

positive on those sessions.

The Summer Institute was held in Louisville in 2007 and in Orlando in 2008 and both produced record attendance. A waiting list of almost as many people as registered made it necessary for us to re-think how best to meet the needs of our members. In order to keep the institute at a manageable number, we ask that no institution register more than three people but if after we close registration there are still spaces available, we will open it up to others. That way, more institutions will have an opportunity to send colleagues. We will also give priority to those who have never attended one of the institutes.

We are always looking for ways to improve evaluator training. Dr. David Carter revised the training for our committee chairs and received very positive feedback on the very practical and case study focused methods he included in the training. Since ours is a peer review process, we are constantly seeking new evaluators. If you are interested in participating in this rewarding professional development activity, please let Dr. Carter know of your interest.

In addition to visiting member institutions and participating in several regional and national meetings, I have been working diligently along side my colleagues in the other regions to ensure that the process of accreditation remains an independent process. With

the delayed passage of the recent version of the Higher Education Act in 2008, the negotiated rulemaking necessary for the implementation of the law only began in early 2009.

Finally, in 2007 we welcomed two new staff members in our budget office: Ms. Lisa Moreaux as the Director of Finances and Ms. Sharon Wilks as the Staff Accountant. In 2008, as a result of Dr. Ann Chard's retirement and a growth in the number and complexity of member institutions, we welcomed Dr. Marsal Stoll and Dr. Steven Sheeley as Vice Presidents.

I feel very positive about the work of our member institutions and look forward to working with each of you as we continue to meet the needs of the students we serve. Remember, Students Are Central to Success.

Drs. Richard L. Morrill and Patricia A. Hayes Named Recipients of The James T. Rogers Distinguished Leadership Award

The Commission on Colleges continued its annual tradition of honoring individuals whose extraordinary commitment to the peer review process exemplifies the true spirit of volunteerism that

characterizes accreditation.

The 2008 recipient of the James T. Rogers Distinguished Leadership Award, the highest public recognition given by the Commission and reserved for extraordinarily distinctive and effective leadership, was presented to Dr. Richard L. Morrill, retired president of the University of Richmond and current Chancellor of the University, during Monday's General Session of the 2008 Annual Meeting. Active in Commission affairs for more than 10 years before his retirement, he distinguished himself as the Chair of SACS' Board of Trustees when he mediated with Board members to amend SACS bylaws thereby (1) allowing each Commission more operational autonomy, (2) eliminating the staff position of president of SACS and creating an administrative council consisting of the executives of the individual Commissions to manage SACS' operations, and (3) allowing each Commission to select its own chief executive officer and administrative staff. He then worked to ensure that the association's membership adopted the new bylaws. These changes realized significant savings for SACS and led the way to the current independence of the Commissions from the authority of the SACS' board. Dr. Edward Ayers, current president of the University of Richmond, accepted the award on Dr. Morrill's behalf.

Dr. Patricia Hayes, former president of St. Edwards University and recently retired Executive Vice President and Chief Operating Officer of the SETON Healthcare Network, was named the 2007 recipient of the award.

Active in Commission affairs for more than 15 years before her transition to the health care field, she distinguished herself in a number of ways in her service to this region's accrediting commission, most specifically when serving as chair of the Alternative Self-Study Committee that engineered the improvement aspect of the Commission's reaffirmation process. This process, used by more than 100 institutions while the *Criteria for Accreditation* was in effect, served as the precursor for today's Quality Enhancement Plan. The Alternative Self-Study invited institutional creativity and flexibility that allowed an institution to focus on a particular aspect of institutional self-improvement.

In addition to the leadership awards, the following individuals received Meritorious Service Awards for personifying the ideals of the Commission on Colleges through extensive volunteerism and extraordinary commitment to the peer review process.

2007 Meritorious Service Award Recipients

- Thomas F. Armstrong, *Vice Chancellor for Academic Affairs, Louisiana State University at Alexandria, Alexandria, La.*
- James F. Barker, *President, Clemson University, Clemson, S.C.*
- Robin W. Hoffman, *President, DeKalb Technical College, Clarkston, Ga.*
- Robert W. Moses, *former Associate Vice President of Planning and Program Development, Indian River Community College, Fort Pierce, Fla.*
- Harold R. Preston, *Vice President for Finance & Management, Hardin-Simmons University, Abilene, Tex.*

2008 Meritorious Service Award Recipients

- Linda B. Adair, *retired Executive Vice President, Gulf Coast Community College, Panama City, Fla.*
- Walter M. Bortz III, *President, Hampden-Sydney College, Hampden-Sydney, Va.*
- J. Bryan Brooks, *former Associate Professor & Chair, Department of Leadership and Educational Studies, Appalachian State University, Boone, N.C.*
- Harold R. Holmes, *Associate Vice President and Dean of Student Services, Wake Forest University, Winston-Salem, N.C.*
- Mary Thornley, *President, Trident Technical College, Charleston, S.C.*

Dr. Phillip Stone Elected to a Third Term

Dr. Phillip C. Stone, President of Bridgewater College in Virginia, was re-elected to a final term during the December 2008 executive session of the 77-member Commission on Colleges. In addition, Dr. John M. Hilpert, President of Delta State University in Mississippi, was elected to succeed Elva Conch LeBlanc, President of the Northwest Campus of Tarrant County College in Texas, as Vice-Chair. Both leaders have had extensive experience with the Commission serving as elected Commissioners from their respective states, as members of the Executive Council, and as participants on visiting committees to institutions.

In his capacity as Chair, Dr. Stone will preside over meetings of the Executive Council, the Commission on Colleges, and the College Delegate Assembly. The Council is the executive arm of the 77-member Commission.

Other Commissioners elected as members of the 2009 Executive Council representing the 11 regional states are:

- Michael A. Battle, *President Interdenominational Theological Center Atlanta, Georgia*
- Karen A. Bowyer, *President, Dyersburg State Community College, Dyersburg, Tennessee*
- Franklyn M. Casale, *President Saint Thomas University, Miami Gardens, Florida*
- Kent John Chabotar, *President Guilford College, Greensboro, North Carolina*
- Robert I. Fernandez, *President Fernandez & Company, CPAs, Fort Worth, Texas*
- Frank Friedman, *President Piedmont Virginia Community College, Charlottesville, Virginia*
- Thomas L. Hallman, *Chancellor University of South Carolina Aiken Aiken, South Carolina*
- Vicki P. Hawsey, *President Wallace State Community College Hanceville, Alabama*
- Gloria W. Raines, *Vice Chancellor for Student Affairs, Louisiana State University in Shreveport Shreveport, Louisiana*
- James R. Ramsey, *President University of Louisville, Louisville, Kentucky*
- Jesse W. Rogers, *President Midwestern State University, Wichita Falls, Texas*

Annual Conferences Attract Record Attendance

Nearly 4,000 individuals participated in large and small group sessions, networking luncheons and dinner, plenary sessions, and workshops provided as part of the Commission on College's Annual Meeting held December 2008 in San Antonio. This represents a 9 percent increase over the number of attendees in 2007 when the meeting was held in New Orleans.

The theme of the 2007 conference, "Renewing Our Commitment to Learning, Students, and the Community," addressed the importance of coupling academic excellence and student learning with civic engagement. Keynote speaker Dr. Samuel Betances, senior consultant with Betances & Associates, Inc. of Chicago, spoke on "The Benefits and Values of Diversity in Higher Education." His presentation was followed by Dr. Benjamin Carson, professor of Pediatric Neurosurgery at Johns Hopkins University, who spoke on "Leadership in Times and Crisis." Lt. General Russel Honoré, Commander General, First Army, and Commander, Joint Task Force-Katrina, addressed the topic "Leadership in Times of Crisis."

The 2008 Annual Meeting selected "Critical Issues in the 21st Century: Leadership,

Access, Measurement, Accountability, and Outreach" as its theme. Keynote speaker Dr. Henry Cisneros, housing innovator, former U.S. Secretary of Housing and Urban Development, and four-term mayor of San Antonio, spoke on "The Essentials of Leadership for the 21st Century." Dr. Judith Eaton, President of the Council for Higher Education Accreditation, talked about "Accreditation after the 2008 Reauthorization of the Higher Education Act" and its impact on the higher education community. Dr. William George was the keynote speaker for the closing session on Tuesday morning. He is the Professor of Management Practice at the Harvard Business School and author of *True North: Discover Your Authentic Leadership*.

The continuing success of the Annual Meeting is reflected in the gradual increase of attendees since 2002 when the Commission on Colleges first separated its meeting from that of the Commissions on Elementary, Middle, and Secondary Institutions due to conference space shortages. The chart below shows the incremental increases by year.

Annual Meeting of SACS Commission on Colleges: Attendee Report Since 2002

Year	Attendees
2002	2,914
2003	3,104
2004	3,262
2005	3,319
2006	3,440
2007	3,772

2008 Marks the Fourth Successful Year for the Summer Institute on Quality Enhancement and Accreditation

Almost 700 participants attended the 2008 SACS-COC Summer Institute on Quality Enhancement and Accreditation held July 27-30, 2008, in Orlando, Florida. The opening speaker was Dr. Barbara Walvoord, Professor Emerita at the University of Notre Dame and author of *Assessment Clear and Simple: A Practical Guide for Institutions, Departments, and General Education* who spoke on "The Role of Classroom-Based Assessment in the Age of Standardized Testing." Other plenary speakers were Dr. Patrick Callan, President of the National Center for Public Policy and Higher Education, who talked about "Accessibility, Affordability, and Accountability in Higher Education"; Dr. Mary Allen, Professor Emerita of psychology at California State University and author of *Assessing General Education Programs* and *Assessing Academic Programs in Higher Education*, who spoke on "Assessment in a Learner-Centered Environment"; Dr. Marilla Svinicki, Professor of Educational Psychology at the University of Texas at Austin and author of *Learning and Motivation in the Postsecondary Classroom*, who addressed participants on "Learning and Motivation in the Postsecondary Classroom"; and Dr. Joseph Silver, who talked about "The Anatomy of the Quality Enhancement Plan."

Attendees who evaluated the institute stated they were pleased with the overall quality (95 percent said they were satisfied or very satisfied). Ninety percent said that the institute met their expectations.

Similar comments came from those who attended the 2007 Annual Meeting held at the Louisville Marriott Hotel July 22-25, 2007, in Kentucky. The opening speaker was Dr. Thomas A. Angelo, Professor of Higher Education and Director of the University Teaching Centre, Victoria University of Wellington, Wellington, New Zealand, who spoke on "Doing Assessment as if Learning

Matters Most: Seven Transformative Guidelines from Research and Best Practice." He also led sessions on "Classroom Assessment and Feedback for Deeper Learning" and "OK, But What Do We Do on Monday? Identifying Promising Ideas, Possible Applications, and Practical Next Steps."

Dr. Milton D. Hakel, Ohio Board of Regents Eminent Scholar in Industrial and Organizational Psychology, Bowling Green State University, Bowling Green, Ohio, and Dr. Diane F. Halpern, Professor of Psychology and Director of the Berger Institute for Work, Family, and Children, Claremont McKenna College, Claremont, California, teamed up to speak on "Present at the Creation: Teaching, Deep Learning, and Creating Understanding and Skill." Drs. Hakel and Halpern also presented breakout topics on "Student Success Plans" and "Teaching and Assessing Critical Thinking: Better Thinking Skills Can Be a College Outcome."

Dr. Gloria Rogers, Associate Executive Director, Professional Services, ABET, Inc., gave a practical talk on "Assessing Student Learning Outcomes" followed by a breakout session on program evaluation.

The Honorable Louis W. Sullivan, M.D., former Secretary of the U.S. Department of Health and Human Services, President Emeritus of Morehouse School of Medicine, and member of the Secretary of Education's Commission on the Future of Higher Education, addressed the audience on the topic of "Accessibility, Affordability, and Accountability: A Discussion of Recommendations of the Spellings Commission Report."

The 2009 Summer Institute will be held at the Hilton Americas in Houston, Texas, July 19–22, 2009. Information about the institute can be found at www.sacscoc.org/institute.asp.

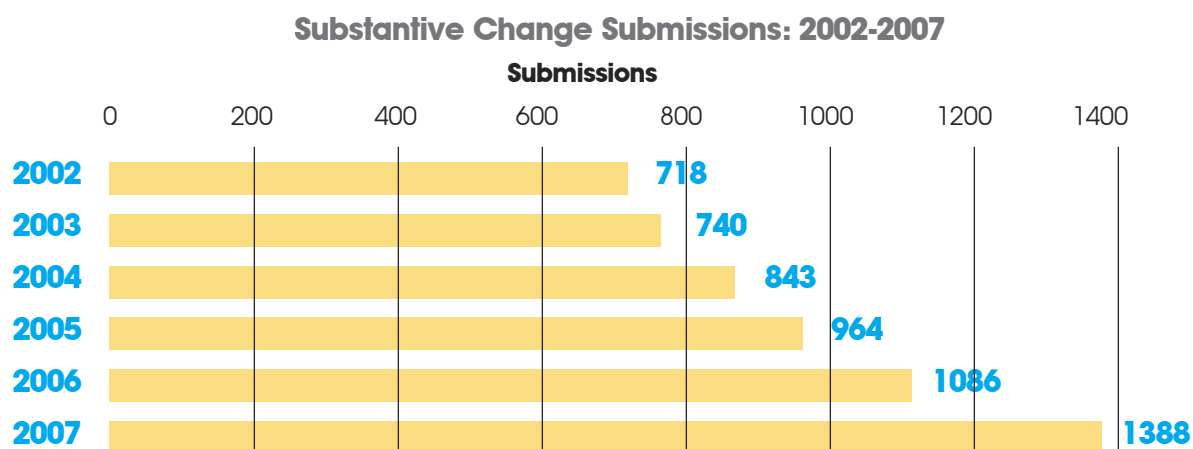

The Impact of Substantive Change Reporting

As a self-regulatory organization, the Commission on Colleges is accountable to a number of constituents: students, faculty, and staff of the institutions that are members in the organization; the general public; and various external agencies. This obligation includes verification that its member institutions have the proper authority and capacity to continuously deliver and ensure the quality of their programs and services within the scopes of their missions. Some changes of a substantive nature that take place in an institution between its decennial reviews can have a direct bearing on its mission and resources. Consequently, the Commission has a responsibility for verifying continuous quality during those changes.

This philosophy of regional accreditation, coupled with an increase of federal regulations and an expanded interpretation of those regulations, have created a significant challenge for institutions—challenges for the timely reporting of changes that respond to student and community needs and better serve their constituents—and for Commission staff responsible for reviewing the submissions.

Commission staff have taken a number of steps to help institutions better respond to the reporting requirements for substantive change: (1) By the end of 2008, staff conducted 15 workshops and are planning additional sessions in south Texas, west Texas, south Florida, Alabama, and Louisiana in spring 2009. (2) They revised the Commission's Web site to include in one location all information pertinent to substantive change. Evaluative comments about the site indicated that users found the information to be complete, useful, and easy to navigate. (3) Staff are in the process of simplifying the language of the policy and making it possible to complete documents online and submit on CD or DVD.

Consequently, this greater awareness of the need to report substantive changes has led to a sharp increase in the submissions of applications and prospectuses. The graph below shows the number of submissions from 2002–2007.

For the period of January—October 2008, the numbers are equally striking:

	<u>2007</u>	<u>2008</u>	<u>% change</u>
Submissions	1197	2084	57
Notification only	741	1336	55
Prospectuses	179	243	74
Site Visits	6	6	---

This has led to longer delays in responding to some submissions; it continues to be the goal of staff to respond within 45 days.

Please address questions about the policy and its application to Drs. Ralph Russell and Sarah Armstrong, staff members responsible for reviewing substantive change documents. Access the substantive change Web page at www.sacscoc.org/SubstantiveChange.asp.

Commission on Colleges Undertakes Expanded Fifth-Year Interim Reviews of Institutions

December 2008 marked the first review of Fifth-Year Interim Reports submitted by institutions to the Commission on Colleges (COC) in response to the U.S. Department of Education's request that all accrediting bodies develop measures to ensure continuous monitoring of accredited institutions that have access to federal dollars. The Commission is one of only a few accreditors that conducts a comprehensive review of its institutions every 10 years; most accrediting agencies conduct such reviews every five to seven years. The Department of Education requires accrediting agencies that it recognizes to monitor its institutions more often to ensure that institutions that receive federal funds continue to meet accreditation standards, especially those required by the Secretary of Education.

To that end, the Commission has developed a Fifth-Year Interim Report, which consists of several parts: (1) a signature page, (2) an abbreviated summary of institutional characteristics, (3) an abbreviated compliance report that addresses 14 standards of the *Principles of Accreditation*, (4) an additional report requested during an institution's previous monitoring that requires an update for ensuring continuing compliance (*not applicable to all institutions*), and (5) a QEP Impact Report (submitted by institutions that were reviewed under the *Principles* during their previous decennial review). If an institution has expanded its off-campus sites since its last reaffirmation or has experienced rapid growth in its off-site offerings, it may also be required to host an off-campus fifth-year committee to conduct a review of a sample of sites.

The first class requested to submit the report was the reaffirmation Class of 2013, Track A (undergraduate institutions). Originally, the Fifth-Year Interim Reports were to be reviewed by the Commission's standing committees—the Committees on Compliance and Reports. However, that process was modified when a revised procedure was created to allow for a preliminary paper review of an institution's documented compliance with standards identified in the abbreviated compliance report. This review, conducted by a Fifth-Year Interim Committee that meets at the same time as the Commission's standing committees, gives institutions a preliminary reading and an opportunity to submit additional

information in support of compliance before being referred to the Commission for action.

The Pilot Process

Using a similar format to that of the off-site reviews at the time of reaffirmation, the 44 institutions in the 2013 Track A Class were divided into four groups organized by types of institutions and clustered by states. The Committee to Review Fifth-Year Interim Reports was divided into four subcommittees to review the mini-compliance certifications submitted by institutions in each of these groups. The subcommittee makeup included a coordinator and four committee members with knowledge and experience reviewing the following areas: academic programs (two evaluators), institutional effectiveness, and support services. All readers had served as members of Off-Site Review Committees and, therefore, had previous experience in the review of Compliance Certifications. Subcommittee coordinators were selected based on their experience and leadership performance as off-site chairs.

After reviewing the mini-compliance certification and discussing an institution's compliance with the 14 standards, the subcommittee selected one of the following options: (1) no additional monitoring required because the institution documented compliance or (2) additional monitoring required with a request for documentation in support of compliance. Additional monitoring reports are then referred to the Commission for action at one of its next meetings.

Overview of Findings from the Review of 2013 Track A Institutions

Of the 44 institutions reviewed in December 2008, 12 had no additional monitoring and 32 were requested to submit a monitoring report for review in either June or December 2009. Of the 32 with monitoring reports, 15 were requested to document compliance with three or fewer of the standards in the

mini-compliance certification; 13 were requested to document compliance with four or more standards; and four to document compliance with 8 or more standards. A break out of the top seven standards is described in the Table.

implementation, and describe the QEP's direct impact on student learning, including the achievement of goals and outcomes. In December, 2008, the Fifth-Year Interim Report Committee reviewed the Impact Reports and provided feedback when appropriate.

STANDARDS MOST OFTEN CITED IN DECEMBER 2008:
Applicable to the 32 institutions requested to submit Monitoring Reports

Standard	Description	Total number cited	Percent cited
FR 4.5	Written procedures for student complaints	23 of 32	72%
CS 3.3.1.1	Institutional effectiveness: educational programs	18 of 32	56%
FR 4.7	Title IV requirements	13 of 32	41%
CS 3.4.11	Academic program	13 of 32	41%
CR 2.8	Full-time faculty	9 of 32	28%
CS 3.2.8	Qualified administrative/academic officers	8 of 32	25%

Institutional Preparation

There are a number of steps that an institution can take to prepare for submission of its Fifth-Year Interim Report. First, maintain an updated version of the Compliance Certification submitted as part of the previous reaffirmation. The 2013 reaffirmation class was last reviewed under the *Criteria for Accreditation* so those institutions were unable to maintain such an update. Second, provide narrative on the report that supports compliance and explains the use of the documentation chosen. Third, provide documentation and examples. For instance, Federal Requirement 4.5 requires an institution to have procedures for addressing student complaints and to show that it follows those procedures. Most often, institutions provide a copy of the complaint procedure and attest to its application, but the standard requires that an institution *demonstrate* that it follows the procedures. This can be done by providing examples. Institutions often failed to demonstrate the application.

The Review of the QEP Impact Report

Three of the original eight institutions that piloted the current reaffirmation review process initiated with the adoption of the *Principles* in 2002 submitted QEP Impact Reports. The Impact Reports require an institution to describe the initial goals of its QEP, discuss changes made to the QEP during its

The only action taken was acceptance of the report. The Commission is discussing how these reports should be reviewed and whether there would be occasions when the Impact Report might be determined to be unacceptable and, if so, what would be the process for further review. All of these points continue to be under discussion.

The Adoption of a Final Review Process

The review in December 2008 of the 2013 Track A institutions' Fifth-Year Interim Reports was based on a piloted procedure endorsed by the Executive Council of the Commission while the Commission continues to gain information on how to improve the process. Final approval will be by the 77-member Commission during its meeting in December 2009. By that time, the Commission will have reviewed approximately 80 Fifth-Year Interim Reports—providing sufficient feedback for finalizing the process.

For updates and additional information regarding the Fifth-Year Interim Report, refer to the Commission's Web site at www.sacxoc.org/FifthYearInterimReports.asp.

Accreditation Actions Taken by the Commission on Colleges During the Five-Year Period Reviewed Under the *Principles of Accreditation*

The following table describes the type and number of cases of accreditation actions taken by the Commission on Colleges since the implementation of the *Principles of Accreditation* in 2004. Note that the total number of cases in 2007 and 2008 increased due to the beginning of the Commission's review of unreported substantive changes submitted after the adoption in 2006 of Comprehensive Standard 3.12 on the reporting of substantive change.

Profile of the Evaluator Registry of the Commission on Colleges 2008

The Evaluator Registry is the Commission's data base incorporating the names of all individuals nominated by their respective institutions and qualified to serve on evaluation committees that conduct the business of the Commission on Colleges. It is composed of more than 4,000 individuals who have the knowledge and experience to assess an institution's compliance with the *Principles of Accreditation*. Table I below shows the number of evaluators by state and by category. Table 2 indicates the number of evaluators by degree level (described below). Table 3 shows the number of evaluators by institutional governance type.

The Commission approved the minutes of its December 2006 Executive Business Meeting. Summaries of the minutes of the December 2006 and February 2007 Executive Council meetings were presented to the Commission as information.

Report from the Chair

Chair Stone reported that during its meetings on June 19-20, 2006, the Executive Council discussed or took the following actions regarding procedures and policies:

1. Approved the 2007-2008 budget of the Commission on Colleges.
2. Approved the 2007-2008 goals of the Commission on Colleges.
3. Approved an investment statement for the Commission's Reserve Fund. The statement sets forth the expectations, strategies, responsibilities and parameters relative to investments and the reporting of those investments.
4. Approved an agreement between the Commission and the Association of Theological Schools establishing a formal policy and procedures by which both agencies can conduct joint Reaffirmation Committee visits to free-standing theological schools that are accredited by both agencies.
5. In February, approved a statement to be incorporated into the Commission's application procedures that makes it clear that formerly accredited institutions seeking to regain membership must follow the same procedures as any other applicant institution.
6. Reviewed a second draft of a *Handbook for the Executive Council*. This handbook outlines the responsibilities of council members and explains their role in the operation of Commission activities.
7. Reviewed a first draft of a position statement on diversity.
8. Forwarded to the Commission proposed changes to the *Principles of Accreditation* in areas remanded in December 2006 during the College Delegate Assembly Business Meeting, changes to three current Commission policies, and the adoption of two new CRAC policies.

In addition, the Chair spent considerable time discussing with the Commission the current and possible effects of organizational changes to the SACS corporate structure and finances since SACS/CASI separately incorporated in Pennsylvania and also merged with North Central's CASI. He also updated the Commission about its litigation with Hiwassee College.

Report from the President of the Commission

Dr. Belle S. Wheelan, President of the Commission, thanked the Commission and staff for their support and assistance this past year. She expressed appreciation to the council and C & R readers for their diligence and time in preparing for and making decisions regarding policy and the accreditation of institutions. Wheelan updated the Commission on the regional commissions and their strategy for affecting changes to the reauthorization of the Higher Education Amendments; presented the Commission's budget and entertained questions about some of the line items; explained and commented on

the success of the new small college initiative; and updated the Commissioner regarding the staff's distance learning committee, the reaffirmation survey sent to institutions recently reaffirmed under the *Principles*, the QEP Summit and its development of a resource booklet, and the upcoming Summer Institute.

The Commission continued the accreditation of the following institution for good cause and continued it on Probation:

Bishop State Community College, Mobile, Ala.
For six months for failure to comply with Section 1 (Integrity), Core Requirement 2.11.1 (Financial Resources), Comprehensive Standard 3.2.8 (Qualified Administrative/Academic Officers), Comprehensive Standard 3.5.1 (College-Level Competencies), and Federal Requirement 4.7 (Title IV Program Responsibilities) of the Principles of Accreditation.

The Commission removed the following institution from membership:

St. Andrews Presbyterian College, Laurinburg, N.C.
For failure to comply with Core Requirement 2.11.1 (Financial Resources), Comprehensive Standard 3.10.1 (Financial Stability) and Comprehensive Standard 3.10.4 (Control of Finances) of the Principles of Accreditation.

Note: Subsequent to the official action of the Commission on Colleges, the institution appealed the decision. The Commission's decision to remove accreditation was upheld by the Appeals Committee of the College Delegate Assembly during an appeals hearing on August 21, 2007. The institution remains an accredited institution on Probation while in litigation with the Commission.

Other Actions

In addition to decisions regarding institutions, the Commission also took the following actions:

1. Endorsed revisions to Comprehensive Standards 3.3.1 (Institutional Effectiveness) and 3.5.1 (College-level Competencies) of the *Principles of Accreditation* and forwarded the document to the College Delegate Assembly for final approval during its business meeting December 2007.
2. Revised the policy "Standing Rules of the Commission on Colleges and College Delegate Assembly." The revised document (1) modifies the composition of the Commission by designating 10 representatives to be faculty or academic personnel; (2) defines more clearly the authority of the College Delegate Assembly as it relates to the approval of fees; and (3) allows the Commission's president to authorize a special committee as a procedural option when dealing with unsolicited information.
3. Revised the "Appeals Procedures of the College Delegate Assembly" and forwarded the policy to the membership for final approval during its business meeting in December 2007. The revised document (1) changes the composition of the appeals committee from that of 12 sitting presidents to nine sitting presidents, two faculty/academic personnel, and one public member, all of whom served as former Commissioners; (2) defines what constitutes the "administrative record" of an institution appealing a Commission decision; and (3) requires that the Commission submit a response brief.
4. Revised "Core Requirement 2.7.4 (Documenting an Alternative Approach)." The revised policy expects an institution seeking an exception to CR 2.7.4 to present evidence that the total degree program meets the requirements of all Comprehensive Standards of the Commission in the areas of educational programs and faculty. The old wording referred to the Commission's Accreditation Procedures for guidance and that document no longer addresses the issue.
5. Endorsed two policies from the Council on Regional Accreditation Commissions addressing the following issues: (1) accredited institutions with related entities and (2) institutions that operate interregionally.

There being no other business, the meeting was adjourned at 10:50 a.m.

The Commission approved the minutes of its June 2007 Executive Business Meeting. A summary of the minutes of the June 2007 Executive Council meeting was presented to the Commission as information.

Report from the Chair

Chair Stone reported that during sessions on December 7-9, 2007, the Executive Council took the following actions:

1. Reviewed and commented on a draft policy for the transfer of an institution's accreditation from one region to another. The Executive Council will review the policy after Commission staff has had an opportunity to look at the council's comments and to forward any proposed revisions.
2. Adopted a *Handbook for the Executive Council* that will serve as its procedural document.
3. Adopted a statement that no longer allows the Commission to reaffirm an institution that does not comply with all the Core Requirements, including Core Requirement 2.12, effective beginning with the 2010 reaffirmation class. This exception was the practice since 2004 and had been approved by the Council to allow institutions and reviewers time to find acceptable thresholds for meeting the requirement. Since the Commission has been working with the *Principles* for five years, the flexibility is no longer necessary. Staff was requested to prepare a document on how the statement approved by the council might be implemented.
4. Approved the appointment of a peer advisory committee that would report to the commission's President and

- would provide advice and guidance to the Commission staff on ways to enhance efficiency, effectiveness, and value to the Commission's peer-review process, particularly in the areas of training and the evaluator registry.
5. Endorsed a Diversity Position Statement that asks institutions to promote and sustain diversity subject to an institution's unique mission and culture. It is neither a policy nor a standard.
6. Reviewed and forwarded to Commission staff some preliminary revisions to the Special Committee policy. The proposed change primarily guarantees an institution additional time to respond to any recommendations in the report of the Special Committee. The policy requires staff to conduct the Special Committee at least four weeks in advance of the final mailing to the Commission for review, regardless of the request of an institution to host the visit later.
7. Discussed strategies to make the membership more aware of the requirements of the Commission's Substantive Change policy. With the adoption in December 2006 of Comprehensive Standard 3.12.1 requiring notification and approval of some types of substantive changes, failure to report substantive change in accordance with the Commission's policy violates not only policy but also a standard.

8. Reviewed and forwarded to the Commission a revised policy called "Litigation: Institutional Obligations."

Chair Stone asked COC legal counsel to update the Commissioners regarding its litigation with Hiwassee College and St. Andrews Presbyterian College.

Chair Stone reported on a call meeting of the council on November 6, 2007, to consider its response to the U.S. Department of Education's request for an interim report. Acting for the Commission, the council revised the following three Commission policies: (1) "Appeals Procedures of the College Delegate Assembly," revising the composition of the

appeals committee by adding another public member; (2) "Third-Party Comment," clarifying deadlines for submitting third-party comments about an institution applying for membership or undergoing reaffirmation; and (3) "Complaint Policy," modifying procedures so that filing a complaint against the Commission extends beyond procedural complaints. The "Appeals Procedures" will be forwarded to the College Delegate Assembly for final vote on Tuesday, December 11, 2007; the other two policies were referred to the Commission as information.

Recognition of Retiring Commissioners

The Chair recognized Commissioners whose terms expired December 2007 and commended them for their many contributions. Retiring Commissioners included the following: Bill Bloodworth, Larry Biddle, Walter Bortz, John Brazil, Jim Krudop, Chuck Lein, Bob Levy, Claudia Limbert, Audrey Powell, Hal Smith, and George Wright. Belle S. Wheelan, President of the Commission, presented gifts of appreciation to each of the retiring members for their many years of service. She also commented on the great group of retiring volunteers whose strength had made a mark on the work of the commission. She also presented a special gift in appreciation of the leadership of Dan Reneau, who will continue as a Commissioner but completed three years on the Executive Council while serving one as vice chair.

Wheelan continued with her presentation by expressing her appreciation to all commission members and C & R chairs for their dedication and service and for their support. She updated the commissioners on finances, the progress of the HEA reauthorization bill, the Commission's review by the National Advisory Committee on Institutional Quality and Integrity, the activities of special study committees, the Summer Institute, and the Commission's small college initiative program.

The Commission approved the minutes of its December 2007 Executive Business Meeting. Summaries of the minutes of the December 2007 and February 2008 Executive Council meetings were presented to the Commission as information.

Report from the Chair

Chair Stone reported that during its meetings on June 24-25, 2008, the Executive Council discussed or took the following actions regarding procedures and policies:

- 1 Approved the 2008-2009 budget of the Commission on Colleges.
- 2 Approved the 2008-2009 goals of the Commission on Colleges.
- 3 Authorized the statewide review of online courses offered from a single Web site by institutions in the Louisiana Community and Technical College system.

- 4 Authorized staff to develop an alternative approach for institutions seeking to offer a joint degree with institutions not accredited by the Commission.

In addition, the Chair spent considerable time discussing organizational changes of SACS/CASI, changes to the SACS corporate structure, and the incorporation of SACS/COC. He called on Patrick McKee, COC legal counsel, to update the Commission on all litigation.

Recognition of Outgoing Commissioners

The Chair recognized the retirement of Linda Adair from the Commission. He thanked her for her remarkable service, leadership, and long-term dedication to the work of the Commission.

Report from the President of the Commission

Dr. Belle S. Wheelan, President of the Commission, thanked the Commission and staff for their support and assistance. She expressed appreciation to the council and C & R readers for their diligence and time in preparing for and making decisions regarding policy and the accreditation of institutions. Wheelan updated the Commission on the regional commissions and their strategy for affecting changes to the reauthorization of the Higher Education Amendments; presented the Commission's budget and entertained questions about some of the line items; and updated them regarding the upcoming Summer Institute.

Report from the Nominating Committee for the Chairs of the Committees on Compliance and Reports

The Nominating Committee of the Committees on Compliance and Reports presented nominees for the chairs of the 2008-09 Committees on Compliance and Reports. The Commission's process for selecting chairs of C & R Committees requires that retiring Commissioners create a slate of nominees from those commissioners who have served at least one year on the Commission, have attended two meetings of the C & R committees, have demonstrated knowledge of the *Principles of Accreditation* and its application, and have the leadership skills to maintain the integrity of the process.

The following commissioners were nominated and elected: William Abare, President, Flagler College, Fla.; Diane Calhoun-French, Provost & Vice President for Academic and Student Affairs, Jefferson Community & Technical College, Ky.; Robin W. Hoffman, President, DeKalb Technical College, Clarkston, Ga.; Keith P. Keeran, President, Kentucky Christian University, Ky.; Harold Martin, Senior Vice President for Academic Affairs, The University of North Carolina General

For 12 months for failure to comply with Comprehensive Standard 3.5.1 (College-Level Competencies) and Federal Requirement 4.1 (Student Achievement) of the Principles of Accreditation.

In accordance with the "Standing Rules of the Commission on Colleges," members of the Commission abstained from the vote on the accreditation status of their respective institutions, affiliated institutions, and recognized conflicts of interest.

Other Actions

In addition to decisions regarding institutions, the Commission also took the following actions:

- 1 Revised the policy "Standing Rules of the Commission on Colleges and College Delegate Assembly." The revised document (1) states in writing the Commission's practice of referring to the Committee on Compliance and Report, Group A, an institution's failure to follow Commission policy on reporting substantive changes, (2) increases the total number of special readers that can be assigned

to each Committee on Compliance and Reports, (3) includes the expectation that non-Commission members on the Committees are subject to the same conflict of interest provisions as Commissioners; and (4) gives to the President of the Commission, rather than the Chair, the task of reappointing non-Commissioners to the Committees.

2. Revised the policy "Substantive Change for Accredited Institutions of the Commission on Colleges." The modified policy (1) allows Commission staff to review and approve the submission of the case of an institution that failed to report and gain approval prior to implementation of a substantive change. If the staff cannot approve the change due to apparent lack of compliance with standards, the case seeking approval will be referred to the Commission, C & R Group A, (2) makes it clear that the initiation of programs moving an institution from Level III to Level IV (adding an education specialist degree to masters' degrees) or from Level V to VI (adding doctoral programs beyond an existing three) are normally reviewed for approval by Commission staff, and (3) refers to C & R, Group A, the requested description of an institution's process for ensuring the timely reporting of future substantive changes.
3. Adopted a new Commission policy "Unreported Substantive Change." This policy outlines the review of unreported substantive changes that require notification or approval prior to implementation.
4. Modified the policy "Special Committee Procedures and Team Report." The revised document (1) eliminates reference to finance readers and stresses the overall appropriateness of committee size to enable the special committee to make a determination regarding compliance with the standards, (2) adds a sentence under "Materials for the Visit" stressing the institution's responsibility to provide documentation of compliance, (3) adds a section called "Scheduling of the Visit" requiring the visit to occur at least four weeks prior to the final mailing of C & R materials (this amounts to approximately six weeks in advance of the C & R meeting) so that institutions have ample time to respond to recommendations and to prevent institutions from requesting late visits which do not give them time to respond, if necessary, (4) combines the section of the policy focusing on the special committee report with that focusing on the response of the institution and spells out the timeline, (5) copies expectations from Commission policy "Deadlines for Submitting Reports" explaining that, under unusual conditions, the Commission president can grant an extension to the submission of documents, and (6) makes it clear that the exit conference is conducted at the discretion of the institution's president.

5. Modified the policy "Accreditation Procedures for Applicant Institutions." The revision provides an applicant institution ample time to respond to any concerns cited in the Report of the Candidacy Committee. Since the candidacy committee is charged to verify information submitted in an application, current policy did not normally allow an institution to respond to concerns.

6. Adopted a new Commission policy "Transfer of Accreditation Among Regional Commissions." This

continued on next page

continued from page 44

- policy creates a procedure for accredited institutions from other regions to transfer accreditation to SACS' Commission on Colleges if the institution is changing its locus of administrative control. The COC will consider for membership only an institution that is accredited and in good standing with its current regional accrediting commission and is chartered or incorporated within one of the 11 SACS' states.
7. Adopted a revision to the Commission's mission. The revised mission statement expands the scope of the Commission to include the accreditation of other international sites approved by the Commission.
 8. Adopted a new position statement "Diversity: A Commission Position Statement." The statement on diversity encourages an institution to promote and sustain diversity subject to the unique mission and culture of each institution. A Commission position statement policy is neither a policy nor a guideline; rather, it examines an issue facing the Commission's membership, describes some appropriate approaches, and states the Commission's stance on the issue.

There being no other business, the meeting was adjourned at 11:05 a.m.

The Commission approved the minutes of its June 2008 Executive Business Meeting. A summary of the minutes of the June 2008 Executive Council meeting was presented to the Commission as information.

Report from the Chair

Chair Stone asked COC legal counsel, Mr. Patrick McKee, to update the Commission regarding its litigation with Hiwassee College and St. Andrews Presbyterian College. In addition, Mr. McKee described the successful transfer of SACS/COC to a 501(c)(3) status and stated that, in accord with the corporation's new bylaws, the Commission on Colleges is now the SACSCOC Board of Trustees.

Chair Stone reported to the Board (the Commission) that during sessions on December 5-6, 2008, the Executive Council took the following actions:

1. Reviewed and commented on the pilot process for reviewing Fifth-Year Interim Reports and adopted the process as the Commission learns from the pilot

experiences. The abbreviated Compliance Certification, requesting documentation of continuing compliance, addresses 14 of the standards in the *Principles of Accreditation*. Information gathered from this pilot review will be forwarded to the Executive Council in February so that it can begin to assess the process and, in the future, forward the process to the Commission for approval.

2. Voted to allow retirees to serve on evaluation committees as long as they continue to meet the standards expected of all evaluators.
3. Discussed strategies for coming into compliance with some additional requirements mandated by the newly reauthorized Higher Education Amendments.

Recognition of Retiring Commissioners

The Chair recognized Commissioners whose terms expired December 2008 and commended them for their many contributions. Retiring Commissioners included the following: Gale Adcock, Joe Barwick, David Beckley, Ray Belton, Blaine Early, Mark Foley, Michael Gerber, Martin Gonzalez, Carl Hite, Eric McKeithan, Royce Money, Eddie Moore, Vivian Presley, Dan Reneau, Behruz Sethna, Milton Sewell, Charles Teague, Henry Tisdale, and Robert Ward. Belle S. Wheelan, President of the Commission, presented gifts of appreciation to each of the retiring members. She commented on the great group of retiring volunteers whose strength had made a mark on the work of the commission. She also presented a special gift in appreciation of the leadership of Elva LeBlanc, who completed six years as Commissioner and three years on the Executive Council while serving one as Vice Chair.

Wheelan continued with her presentation by expressing her appreciation to all commission members and C & R Chairs for their dedication and service and for their support. She

updated the commissioners on finances, the impact of the newly adopted HEA reauthorization bill, the activities of special study committees, the Summer Institute, and the impact of the Commission's separate incorporation including the transfer of assets.

Report of the Nominating Committee Regarding Nominees to the Commission and Election of the 2009 Executive Council

The Commission on Colleges reviewed the slate of nominees presented by the Commission's nominating committee, chaired by Walter Bortz, President of Hampden-Sydney College, and approved the following list of individuals to serve as members of the 2009 Executive Council of the Commission on Colleges: Phillip C. Stone (Chair), President, Bridgewater College, Virginia; John Hilpert, (Vice Chair), President, Delta State University, Mississippi; Michael A. Battle, President, Interdenominational Theological Center, Georgia; Karen A. Bowyer, President, Dyersburg State Community College,

Tennessee; Franklyn M. Casale, President, Saint Thomas University, Florida; Kent J. Chabotar, President, Guilford College, North Carolina; Robert I. Fernandez, President, Fernandez & Company, Texas; Frank Friedman, President, Piedmont Virginia Community College, Virginia; Thomas L. Hallman, Chancellor, University of South Carolina Aiken, South Carolina; Vicki P. Hawsey, President, Wallace State Community College, Alabama; Gloria W. Raines, Vice Chancellor for Student Affairs, Louisiana State University in Shreveport, Louisiana; James Ramsey, President, University of Louisville,

Kentucky; and Jesse W. Rogers, President, Midwestern State University, Texas.

The reports from the nominating committee for the Commission on Colleges regarding nominees to the Commission, the appeals committee, and the SACS' board of trustees were presented as information. Chair Stone thanked the members of the 2008 Executive Council for coordinating the nominating processes in their respective states.

Chair Stone referred the membership to the list of commissioners elected on Monday to serve on the 2008 Executive Council of the Commission. The report was presented to the College Delegate Assembly as information.

Chair Stone recognized and thanked the following members of the 2007 nominating committee of the Commission: Linwood H. Rose (Chair), President, James Madison University, Va.; Larry L. Earvin, President, Huston-Tillotson University, Texas; Jack Hawkins, Jr., Chancellor, Troy University, Ala.; William G. Ingram, Senior Vice President/Chief Instructional Officer, Durham Technical Community College, N.C.; and Dorothy L. Lord, President, Coastal Georgia Community College, Ga.

Report from the Commission

Proposed Changes to the Principles of Accreditation. Chair Stone reported that a copy of the proposed changes to the Principles of Accreditation was sent in October to the chief executive officers of the Commission's member institutions and was posted on the Commission's Web site five weeks prior to this meeting. He reminded the membership that a session was held during this Annual Meeting on Sunday, December 9, to present the changes and answer any questions the membership might have regarding the proposal. The session was conducted by the Principles Review Committee and introduced by Dr. Shirley Lewis, former President of Paine College. (For a list of all members of the Committee, see page 25 under Ad Hoc Committees.)

The Chair reminded the assembly that the two Comprehensive Standards before this body for vote were those remanded to the Commission for further review by the CDA last December: CS 3.3.1 (Institutional Effectiveness) and CS 3.5.1 (College-level Competencies). The Principles Review Committee met twice between April and June of 2007. During its final meeting in June, the committee convened to consider responses received from the membership and other interested parties to the call for comments to the proposed changes as distributed in late April. The call for comment generated responses from a cross-section of institutions and other constituents, most of whom commended the work of the committee. The comments indicated a high level of satisfaction with the proposed changes.

Chair Stone reminded the assembly that, according to the "Standing Rules of the College Delegate Assembly," the proposed changes could be approved or rejected in part or whole, or could be remanded back to the Commission. The proposals could not be modified from the floor of the assembly.

Chair Stone called on Vice Chair Reneau to present the proposed changes to the *Principles* as approved by the

Commission in June 2007. A motion was made on behalf of the Commission to adopt the changes as presented. It was seconded and passed. The changes will become effective January 1, 2008.

Proposed changes to the "Appeals Procedures of the College Delegate Assembly." Chair Stone reported that a copy of the proposed changes to the appeals procedures of the College Delegate Assembly was sent in October to the chief executive officers of the Commission's member institutions and was posted on the Commission's Web site five weeks prior to this meeting. He reminded the membership that a session was held during this Annual Meeting on Sunday, December 9, to present the changes and answer any questions the membership might have regarding the proposal. The session was conducted and introduced by Dr. Dan Reneau, Vice Chair of the Commission and President of Louisiana Tech University. The revised procedures (1) change the composition of the appeals committee to include faculty/academic personnel as well as representatives from the public and (2) clearly outline what constitutes the administrative record of the institution appealing the Commission's decision.

Chair Stone reminded the membership that it could only adopt, defeat, or remand the proposal. The assembly may not modify the policy or proposal from the floor of the College Delegate Assembly.

Chair Stone called on Vice Chair Reneau to present the proposed changes to the "Appeals Procedures of the College Delegate Assembly" as approved by the Commission in June 2007 and revised by the council in November 2007. A motion was made on behalf of the Commission to adopt the proposal as presented. It was seconded and passed. The revised policy will become effective January 1, 2008.

Report of the Commission on Colleges on the Accreditation of Institutions

Vice Chair Reneau read the reports from the Commission on Colleges regarding accreditation actions taken on June 21, 2007, and December 10, 2007. The reports were read as information. (See Minutes of the Commission on Colleges, June 21, 2007, page 29, and Minutes of the Commission on Colleges, December 10, 2007, page 34.)

There being no further business, the meeting was adjourned at 11:45 a.m. after announcing that the college delegates would reconvene in December 2008 in San Antonio, Texas.

Minutes of the Meeting of the College Delegate Assembly: December 9, 2008

The College Delegate Assembly held its Annual Business Meeting in the Henry B. Gonzalez Convention Center in San Antonio, Texas, on December 9, 2008, beginning at 10:30 a.m. Chair Phillip C. Stone, President of Bridgewater College in Virginia, presided. Dr. Elva LeBlanc, President of the Northwest Campus of Tarrant County College in Texas, served as vice chair.

Dr. Jennifer Braaten, President of Ferrum College in Virginia, introduced the meeting's speaker, Dr. William George, Professor of Management Practice at the Harvard Business School, whose topic was "True North: Discover your Authentic Leadership."

Report of the Commission on Colleges on the Accreditation of Institutions

Vice Chair LeBlanc read the reports from the Commission on Colleges regarding accreditation actions taken on June 26, 2008, and December 8, 2008. The reports were read as information. (See Minutes of the Commission on Colleges, June 26, 2008, page 40, and Minutes of the Commission on Colleges, December 8, 2008, page 45.)

There being no further business, the meeting was adjourned at 10:50 a.m. after announcing that the College Delegates would reconvene in December 2007 in New Orleans.

Appeals Proceedings of the Delegate Assembly

THE REPORT OF THE APPEALS COMMITTEE: 2007

On June 21, 2007, the Commission on Colleges took action to terminate the accreditation of St. Andrews Presbyterian College, Laurinburg, NC, citing failure to comply with Core Requirement 2.11.1 (Financial Resources), Comprehensive Standard 3.10.1 (Financial Stability), and Comprehensive Standard 3.10.4 (Control of Finances) of the *Principles of Accreditation*. Following notification of the action, the institution appealed the decision of the Commission. On August 21, 2007, the Appeals Committee of the College Delegate Assembly met to take action on the appeal of St. Andrews Presbyterian College. The appeals committee ruled to uphold the decision of the Commission taken on June 21, 2007, to terminate the accreditation of the college. (As of December 31, 2008, the institution remains an accredited institution on Probation while in litigation with the Commission.)

THE REPORT OF THE APPEALS COMMITTEE: 2008

The Appeals Committee of the College Delegate Assembly did not convene in 2008.

INDEPENDENT AUDITORS' REPORT

Board of Trustees Southern Association of Colleges and Schools, Inc.

We have audited the accompanying statement of financial position of the Southern Association of Colleges and Schools, Inc. (the Association) as of June 30, 2008, and the related statements of activities, and cash flows for the year then ended. These financial statements are the responsibility of the Association's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Southern Association of Colleges and Schools, Inc. as of June 30, 2008, and the changes in its net assets and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued reports dated November 20, 2008 on our consideration of the Association's internal control structure over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Our audit was performed for the purpose of forming an opinion on the basic financial statements of the Association taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

NOTES TO FINANCIAL STATEMENTS

June 30, 2008

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements include the accounts of the Southern Association of Colleges and Schools, Inc. (the Association), a Georgia nonprofit corporation without capital stock. The Association was incorporated exclusively for educational purposes, and its stated objective is to improve education in the southern region of the United States through the exercise of leadership and through the promotion of cooperative efforts among colleges, schools and related agencies. The Association grants normal credit terms to its members who primarily consist of colleges and schools in the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas and Virginia.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Actual results could differ from those estimates.

A summary of the significant accounting policies of the Association applied in the preparation of the accompanying financial statements follows.

1. Fund Descriptions

The Association maintains their accounts in accordance with the principles of fund accounting. This accounting method provides a procedure by which resources for various purposes are classified for accounting purposes into funds, which were established according to their nature and purposes. All of the Association's fund balances are classified as unrestricted and have been reported as unrestricted total net assets in the accompanying financial statements.

The assets, liabilities and fund balances of the Association are described as follows:

Association Funds - The program functions of the Association are carried out principally through one commission; the members of the commission have been elected by its delegate assembly. The commission and the year it commenced operations as a part of the Association is the Commission on Colleges established in 1919.

Property Fund - The fund represents funds expended by the Association for acquisition of property and equipment, net of accumulated depreciation, the bond payable and certain equipment acquisitions funded by the industrial revenue bond proceeds.

Association Reserve Fund - The Board has established an Association Reserve Fund. This fund has been designated for use only by authorization of the Board. Accordingly, the fund is accounted for as a separate fund of the Association.

Vocational Technical Education Consortium of States (VTECS) (Board Designated) - The Board has established this fund for the specific purpose of accounting for the separate activities of the programs of the Vocational Technical Education Consortium of States.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

1. Fund Descriptions - continued

Grant Fund (Board Designated) - Fees, grants and contract revenues received for specified purposes are classified as grant funds. Expenses related to these programs are charged against this fund balance.

Central Administration Expenses - Administrative and support functions are performed by the Central Administration staff, which administers and coordinates the work of the Association under policies established by the Board. A portion of each commission's dues is allocated to the Central Administration for operating expenses, and a portion of such operating expenses is allocated to the projects. The Central Administration operating income or loss for each fiscal year is transferred to the Association Reserve Fund.

Building Operations Fund - The Board established a Building Operations Fund to which a portion of each commission's revenues are allocated for the operating expenses of the building.

Group Health Insurance Reserve Fund (Board Designated) - The Board established the Group Health Insurance Reserve Fund for the purpose of funding the Association's partial self insurance for group health benefits. This fund accumulates the annual savings between the cost of full insurance coverage and the cost of the partial self insurance. This fund will be used to fund the cost of group health benefits in years where the cost of self insurance exceeds the cost of full insurance coverage. In addition, the Board has allocated the liability related to health care insurance benefits for retirement employees and their dependents (Note E) to this fund.

Building Maintenance Reserve Fund (Board Designated) - The Board established a Building Maintenance Reserve Fund for the specific purpose of funding normal replacements and maintenance of the building's components. Funding levels are established by the Board based on the estimated lives of the various building components and the estimated cost of future repairs.

2. Financial Statement Presentation

The Association's financial statements are prepared in accordance with Statement of Financial Accounting Standards No. 117 (SFAS 117), *Financial Statements of Not-for-Profit Organizations*. Under SFAS 117, the Association is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets and permanently restricted net assets. The Association considers all of its net assets to be unrestricted net assets. In addition, the Association is required to present a statement of cash flows.

3. Allowance for Doubtful Accounts

The Association provides an allowance for doubtful accounts equal to the estimated collection losses that will be incurred in the collection of all receivables. The estimated losses are based upon historical collection experience coupled with a review of the current status of existing receivables.

Southern Association of Colleges and Schools, Inc.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

4. Property and Equipment

Uses of operating funds for property and equipment are accounted for as transfers to the property fund. Proceeds from the sale of property assets, if unrestricted, are transferred to operating fund balances or, if restricted, to deferred amounts restricted for property acquisitions.

Depreciation of property and equipment is provided in amounts sufficient to relate the cost of depreciable assets to operations over their estimated useful lives on a straight-line basis. The estimated useful lives of the various classes of assets are as follows:

<u>Class of Asset</u>	<u>Estimated Useful Lives (years)</u>
Building	40
Land improvements	5
Furniture, fixtures and equipment	3-10

5. Deferred Revenue

Deferred revenue reported as a current liability represents dues related to future membership periods which were received prior to the end of the fiscal year.

6. Interest

Interest costs, approximating \$17,700 for the year ended June 30, 2008, have been charged to operations as incurred.

7. Revenue Recognition

Revenue is recognized as services are provided.

Grants restricted by the grantor for particular operating purposes are deemed earned and are recorded when the Association has incurred expenditures in compliance with the specific restrictions.

8. Fair Value of Financial Instruments

SFAS 107, *Disclosures About Fair Value of Financial Instruments*, requires disclosure of the fair value of certain items, including receivables, investments, payables and debt. The Association believes that the amounts disclosed for such amounts within the statement of financial position do not differ significantly from fair value as defined in SFAS 107.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

9. Concentrations of Credit Risk

Financial instruments, which potentially subject the Association to concentrations of credit risk, are principally receivables and investments. Concentration of credit risk with respect to receivables is limited due to the members comprising the Association's member base and the profession in which its members operate. To reduce risk, the Association routinely assesses the financial strength of its members and, as a consequence, believes that its receivables' credit risk exposure is limited. Concentration of credit risk with respect to investments is limited due to the diversified nature of the Association's investment portfolio (Note B). To further reduce credit risk, the Association's Administrative Council and the Trust Department of the Association's principal investment institution routinely assess the financial strength and diversification of the investments.

10. Cash and Cash Equivalents

For the purposes of the statement of cash flows, the Association considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

NOTE B - INVESTMENTS

Investments at June 30, 2008 are recorded at market value based on quoted market prices in accordance with SFAS 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*. The Association's investments represent funds held for future operational or capital needs. Changes in the basis of investments held at the end of the year are reflected in the statement of activities as unrealized appreciation/depreciation in the market value of investments. Realized gains and losses on the sale of investments are recorded based upon the difference between the proceeds and the basis of the investments. The basis of the investments is determined by the specific-identification method. Interest income and dividends are recognized when earned.

NOTE C - BOND PAYABLE

The bond payable consists of an industrial revenue bond payable to a bank in equal monthly installments of \$9,058 plus interest at 78.24% of the bank's prime rate on the first day of each month (Prime rate at June 30, 2008 was 5%.) with the final payment due in December 2010.

The use of the bond proceeds was restricted to the purchase of land and construction and furnishing of a building used as the Association's headquarters, and the bond payable is collateralized by the building and land.

Maturities of bond indebtedness subsequent to June 30, 2008 are as follows:

<u>Year ending June 30,</u>	
2009	\$108,696
2010	108,696
Thereafter	<u>54,347</u>
	<u>\$271,739</u>

NOTE D - PENSION PLAN

The Association has a contributory Defined Contribution Pension Plan in which substantially all employees of the Association are required to participate. Under the requirements of the Plan, the employees contribute 2.5% of their regular salary (as defined), and the Association contributes 12.5% of the employee's regular salary (as defined) for the purchase of individual deferred annuity contracts from The Legends Group, the Teachers Insurance and Annuity Association, College Retirement Equities Fund and/or the Variable Annuity Life Insurance Company. The Association's pension expense for the year ended June 30, 2008 was approximately \$451,000.

NOTE E - EMPLOYEE BENEFIT PLANS

The Association provides certain health care insurance benefits for retired employees and their dependents. The Plan has been closed to new participants. Certain employees become eligible for health care insurance benefits if they retire after they reach 60 years of age and achieve 10 years of continuous service while working for the Association. The Association accounts for these benefits under SFAS 106, *Employers' Accounting for Postretirement Benefits Other Than Pensions*, which requires that the expected cost of these benefits be charged to expense during the year that the employees render service.

NOTE E - EMPLOYEE BENEFIT PLANS - CONTINUED

The funded status of the postretirement benefit plan for the year ended June 30, 2008 is as follows:

Accumulated postretirement benefit obligation	\$2,311,781
Unrecognized gain	<u>134,136</u>
Postretirement benefit obligation	<u>\$2,445,917</u>

The components of the net periodic postretirement benefit cost for the year ended June 30, 2008 is as follows:

Service cost	\$ 34,611
Interest cost	<u>130,517</u>
	<u>\$165,128</u>

Assumptions used to calculate the net periodic postretirement benefit cost and the accumulated benefit obligation for the year ended June 30, 2008 are as follows:

Discount rate	6.25%
Medical trend rate	7.25%
Year ultimate trend rate is achieved	2013

The Association expects to contribute \$132,000 to its postretirement benefit plan from July 1, 2008 through June 30, 2009.

The following benefit payments are expected, which reflect expected future service and decrements as appropriate, discount rate projections, and health care cost trend rate estimates to be paid for fiscal years beginning July 1:

<u>Year ending June 30,</u>	
2009	\$132,000
2010	147,000
2011	157,000
2012	170,000
2013	178,000
2014 - 2018	909,000

If the health care cost trend rates were increased by 1% for all future years, the accumulated postretirement benefit obligation as of June 30, 2008 would have increased by approximately \$271,000. The aggregate of the service and interest cost for the year ended June 30, 2008 would have increased by approximately \$22,000.

Southern Association of Colleges and Schools, Inc.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE E - EMPLOYEE BENEFIT PLANS - CONTINUED

The Association is the owner and beneficiary of twenty-six life insurance policies on certain vested plan participants. Each policy carries a death benefit of \$50,000. It is the Association's intention to use the proceeds of the death benefit, when received, to offset the cost of providing these postretirement benefits.

NOTE F - COMMITMENTS AND CONTINGENCIES

The Association has an agreement with an insurance carrier whereby the Association's group health insurance is partially self-insured. Under the agreement, the Association funds each employee and/or his/her dependent claims up to a maximum of \$45,000 annually. The Association's maximum liability to the claim fund cannot exceed \$1,206,000 annually. At June 30, 2008, the Association had no unfunded liability for submitted claims. Claims for occurrences prior to June 30, 2008 were unknown at that date and are estimated to be insignificant.

The Association has cash deposits and investment accounts with financial institutions, which fluctuate from time to time in excess of the insured limitation of the Federal Deposit Insurance Corporation. If these financial institutions were not to honor their contractual liability, the Association could incur losses. Management is of the opinion that there is no risk of loss because of the financial strength of these financial institutions.

From time to time, the Association may have asserted and unasserted claims arising in the normal course of business. The Association does not expect losses, if any, arising from these asserted and unasserted claims to have a material effect on the financial statements.

The Association has been named as a defendant in a lawsuit filed by a member. The member is currently seeking damages of approximately \$4,700,000 due to the Association's decision to revoke the member's accreditation. The Association's attorneys have advised management that no determination as to the likelihood of an unfavorable outcome can be made at this point. The parties are conducting discovery with the period set to close on November 15, 2008. Management believes the lawsuit is without merit and is vigorously defending the case. As a result, the Association has not recorded a liability due to this contingency at June 30, 2008.

NOTE G - TAX STATUS

The Association is exempt from federal income taxes under the provisions of §501(c)(3) of the Internal Revenue Code. The Internal Revenue Service has also determined that the Association is not a private foundation as defined by §509(a)(1) of the Code.

Southern Association of Colleges and Schools, Inc.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

June 30, 2008

NOTE H - DEFERRED COMPENSATION

The Association has entered into deferred compensation agreements with certain key employees and former employees. These agreements require the Association to pay a portion of each employee's salary into a salary continuation account that is invested into certain investments as defined by the agreements. These payments are required to continue through each employee's stated vested date. Upon retirement and participant request, the fair values of the salary continuation accounts are to be paid to the employees in sixty substantially equal monthly installments.

NOTE I - RELATED PARTY TRANSACTIONS

The Association maintains a plan that provides certain health care insurance benefits for retired employees and their dependents (Note E). Advance Education, Inc. (AdvancED) has certain employees and former employees that participate in the Plan. The Association pays all the expenses and bills AdvancED for its portion. At June 30, 2008, the Association had a receivable of approximately \$796,000 due from AdvancED for its portion of the post retirement benefit obligation.

At June 30, 2008, the Association had a liability of approximately \$448,000 due to AdvancED for various recurring operating expenses paid by AdvancED on behalf of the Association.

NOTE J - SUBSEQUENT EVENT

Subsequent to June 30, 2008, certain economic conditions have resulted in significant declines in the financial markets, including the markets in which the Association holds investments. The value, liquidity and related income of these investments are sensitive to changes in economic conditions. As a result, the Association's investment balances have likely experienced similar declines.

SINGLE AUDIT SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

**Board of Trustees
Southern Association of Colleges and Schools, Inc.**

We have audited the financial statements of the Southern Association of Colleges and Schools, Inc. (the Association as of and for the year ended June 30, 2008, and have issued our report thereon dated November 20, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Association's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the organization's ability to initiate, authorize, record, process or report financial data reliably in accordance with generally accepted accounting principles, such that there is a more than a remote likelihood that a misstatement of the organization's financial statements that is more than inconsequential will not be prevented or detected by the organization's internal control. We consider the deficiency described in the accompanying schedule of findings, questioned costs and other recommendations to be a significant deficiency in internal control over financial reporting.

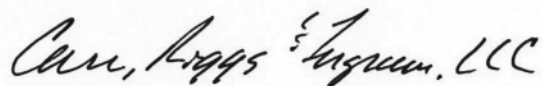

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the organization's internal control. The significant deficiency noted above is not considered to be a material weakness.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed above, we identified a certain deficiency in internal control over financial reporting that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Association's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE
TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

**Board of Trustees
Southern Association of Colleges and Schools, Inc.**

Compliance

We have audited the compliance of the Southern Association of Colleges and Schools, Inc. (the Association) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2008. The Association's major federal program is identified in the auditors' results section of the accompanying schedule of findings, questioned costs and other recommendations. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the Association's management. Our responsibility is to express an opinion on the Association's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Association's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Association's compliance with those requirements.

In our opinion, the Association complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2008.

Internal Control over Compliance

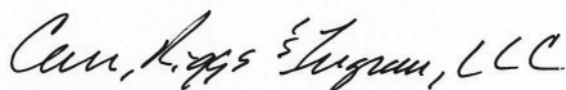

The management of the Association is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Association's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended for the information of management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

AND OTHER RECOMMENDATIONS**

SECTION II - FINANCIAL STATEMENTS FINDINGS

2008-1: **Condition:** The Association's year-end closing process did not adequately identify all accounts that required adjustment.

Effect: As a result of an inadequate closing process, our audit resulted in a number of adjusting journal entries.

Cause: This condition exists due to a lack of use of a formal close out process that includes ensuring all accounts balances are adequately adjusted or reconciled.

Recommendation: We recommend that the Association develop and implement a checklist and review process that ensures that the books adequately closed and that all required adjustments to accounts are made in a timely fashion.

Views of Responsible Officials and Planned Corrective Action: Management has begun developing an appropriate checklist and developed a review process to ensure that the financial statements are complete and accurate.
